Dear friends of HAUS,

We hope that you are enjoying your summer, and we also hope that you are eager to start the fall season with another exciting Heidelberg Alumni event.

Two representatives from Heidelberg University will be in town and happy to share the latest work and research from two of the university's "crown jewels" in a casual setting.

Dr. May-Britt Becker is Managing Director of the Excellence Cluster CellNetworks, an interdisciplinary research cluster that tackles fundamental questions in cell biology, its network structure and architecture, dynamics and regulation.

Tobias Just, Managing Director at Marsilius Kolleg, an interdisciplinary "think tank" at Heidelberg University, will talk about bringing together scientists/scholars from the sciences and the humanities and initiating projects such as "New Interdisciplinary Anthropology", "Global Governance of Climate Engineering", and "Ethical and Legal Aspects of Whole Genome Sequencing".

We hope you can join us on

**Monday, September 12, 6:30pm at the
Lexington Lounge**
130 East 39th Street, corner of Lexington Avenue

There will be appetizers and happy hour cocktail specials, and time to network. Feel free to bring your partners and/or friends.

Please RSVP by registering [HERE](#).

We look forward to seeing you on September 12!

Yours,

Nina
